Predictive Thermometry

Amico

Oral/Aux Mode

Removable Probe Well

LCD Display

Part Number: TP-X-OP4

Features

- Oral/Axillary and Rectal options
- Color coded probe and isolation chambers
- Oral temperatures in under 4 seconds
- Hygienic loading and ejecting of probe covers
- Battery life of 6000 measurements
- Intuitive icon based interface
- Flexible probe design increases durability
- Available with Pulse Timer option
- Anti-theft locking base available

Minimizing cross contamination is made a priority with touchless loading and ejecting of the single use probe covers. A full swap, including probe covers, occurs when converting between oral/axillary and rectal measurements, further protecting against possible infection.

1 YEAR warranty

Predictive Thermometry

Options

Isolation Chambers

Part Number:
TP-ORL-CHB

Part Number:
TP-RCT-CHB

- Color-coded for easy identification.
- Chamber also holds probe covers to further prevent cross contamination between oral and rectal measurements.

Mounting Options

- Thermometry unit can be mounted on wall, rail system, or roll stand.
- Locking feature helps prevent theft.
- Mount system uses electronic return to base feature.

Call for Part Number

Disposable Probe Covers

- Single use probe covers minimize the risk of cross contamination.
- Probe covers conveniently fit into Isolation Chambers.
- Touchless probe cover loading and ejecting support infection control.

Part Number: 502000: pack of 2000

Probes

Part Number:
TP-ORL-PB4

Part Number:
TP-RCT-PB4

- Color-coded for easy identification.
- System will recognize the type of probe connected.
- 4 ft (122 cm) and 9 ft (274 cm) cord lengths available.

Features

Accuracy

- Quick Mode ± 0.3° C (± 0.6° F)
- Standard Mode ± 0.1° C (± 0.2° F)
- Direct Mode ± 0.1° C (± 0.2° F)

Measurement Response Time

- Quick Mode: < 4 sec Oral
- Standard Mode: < 10 sec Oral; < 14 sec Axillary/Rectal

- Direct Mode: 1 - 2 mins Oral, Axillary, Rectal
- Cold Mode: < 15 sec Oral; < 20 sec Axillary/Rectal

Ambient Operating Range

- 10° C - 40° C (50° F - 104° F) at 10% - 95% RH

Temperature Range

- 30.0° C - 43.0° C (86.0° F - 109.0° F)

Storage Temperature Range

- -25° C - 55° C (-13° F - 131° F) at 95% RH

Battery Life

- 6000 measurements on 4 AA batteries

Anti-theft System

- Electronic system (return to base message)
- Mountable base with key lock
