

Product Description

The LED Illuminated Image Wall Fixture is designed for MRI suite applications. It is a non-ferrous assembly which can be mounted within the MRI room. It is pre-engineered with easy installation textured lenses and can have applied artwork image graphics. Contains no on-board electronics therefore will not interfere with MRI imaging. Certified to meet MRI vendor EMI requirements. MRI applications require EMI free emissions for specific frequency bands. All drive circuitry employs linear regulation and no pulse width modulation (PWM*).
